

APPLICATION FOR CLOSURE OF POLLUTANT STORAGE TANK SYSTEMS

This application is to detail the work and persons involved in the closure of a storage tank system subject to the provisions of Chapter 62-761, F.A.C. The application should be submitted to the Storage Tank Compliance Department (STC) of the Environmental Protection Commission of Hillsborough County (EPC) at least 10 days prior to the initiation of the closure activities. Contact Waste Management Division STC at (813) 627-2600 ext. 1316 or / Fax (813) 627-2640. STC must also be given notice at least 48 hours prior to the initiation of the closure to confirm the date and time of the activities (as per Chapters 62-761 and 62-762, F.A.C.). **There is no fee for review of the closure application.**

Directions: Complete the following as indicated. *Please note incomplete applications cannot be processed by this office.* One application is sufficient for more than one tank system at the same facility involved in the closure, as long as the means of closure is identical for all tanks.

1. Facility Information:

DEP Facility #:	Facility Name:
Facility Address:	
Property Owner Name:	
Property Owner Address:	
Name/Phone Number of Owner Contact:	
Operator's Name:	
Operator's Address:	
Name/Phone Number of Operator Contact:	

2. Facility Diagram:

a facility diagram (preferably 8½" x 11") should be attached. The diagram does not have to be to scale, but should clearly illustrate the following:

- a. location and orientation of storage tank system(s) to be closed.
- b. location and approximate lengths of piping.
- c. location of vents and dispensing systems.
- d. location of monitoring wells in proximity to storage tank system(s).
- e. location of landmarks, such as roads (labeled), and buildings. Indicate North direction.
- f. description of any overburden, or any other condition that would affect the closure of the storage tank system(s).

3. Storage Tank Registration Form:

A completed and signed STRF should be submitted as an attachment to this application. **The facility owner or operator must sign the STRF.**

4. The information in this application pertains to (*check all that apply*):

- Closure Assessment
 Removal
 Closure In Place

5. **Tank System(s) Information** *(complete only for those systems to be closed):*

Tank Number	Capacity (gal)	Contents	Tank Construction	Piping Construction	Remaining Liquid/Sludge (gal)

6. **Pollutant Storage Systems Specialty Contractor (PSSSC) to be on site:** *required only for the removal of underground storage tank systems. A copy of the license should be attached to this application.*

Individual Licensed as PSSSC:	
PSSSC#	Site Foreman:
Company Name:	Phone #:
Address:	

7. **The following applies to the physical closure of the tank system:**

Method for inerting tank(s):		
Integral piping to be:	Capped <input type="checkbox"/>	Grouted <input type="checkbox"/> Removed <input type="checkbox"/>
Company Removing/Filling Tank(s):		
Contact Name:	Phone #:	
Company Transporting Tank(s):		
Contact Name:	Phone #:	
Company Receiving Tank(s) for Disposal:		
Contact Name:	Phone #:	

8. **Indicate Company(s) to transport/dispose of residual liquid/product/sludge (L/P/S):** *Note: if hazardous waste is involved, please also supply the EPA ID # for HazWaste Transporter.*

Transport Company:	
Contact Name:	Phone #:
Company Receiving L/P/S for Disposal:	
Contact Name:	Phone #:

9. The field sampling will be performed by:

Company Name:	Company Address:
Contact name:	Phone #:
Field Technician Names:	
Equipment to be used for Soil Screening (<i>specific make and model</i>):	

10. The laboratory analysis of soil analysis of soil and groundwater samples will be performed by:

Contracted Laboratory:	Phone #:
Address:	
Contact Name:	FDEP QA/QC#:

11. Indicate Company(s) to transport/dispose of excavated contaminated soils: **NOTE: Pursuant to Rule 62-770.300(3)(a)6: Excavated contaminated soil(including excessively contaminated soil) shall not be stored or stockpiled on-site for more than 60 days after excavation, or unless it is stockpiled on a right-away, in which case it shall be removed for proper treatment or proper disposal as soon as practical, but no later than 30 days after excavation, or unless it is being land farmed pursuant to paragraph 62.770.300(3)(b), F.A.C., at which time the soil shall be return to the original excavation, or removed and properly treated or properly disposed.**

Transport Company:	
Contact Name:	Phone #:
Company Receiving Soil for Disposal:	
Contact Name:	Phone #:
Method of Disposal:	

Dewatering: If dewatering is necessary and effluent is discharged off site, the contractor must obtain an Industrial Wastewater Short Term Generic Dewatering Permit from the Department of Environmental Protection. Contact DEP-Southwest District Industrial Waste Section at 813-632-7600, ext. 303 for more information. Please include a copy of the permit or approval with this application.

SIGNATURE STATEMENT

I hereby certify that the information provided on this form and attached with this application is accurate and complete to the best of my knowledge, and that I have investigated all available sources of information before indicating that any details are unknown or unavailable.

I hereby certify that:

1. All closure activities will be performed in accordance with the American Petroleum Institute Recommended Practice 1604 (Third Edition, March 1996), and
2. All closure assessment requirements will be completed in accordance with the FDEP Storage Tank System Closure Assessment Requirements (April, 1998), FDEP Quality Assurance SOP for Petroleum Storage Tank Systems Assessments (April 1998), and EPC Closure Assessment Guidelines, and
3. All safety precautions will be undertaken in accordance with the Code of Federal Regulations Title 29, Part 1910, of the Occupational Health and Safety Administration.

I further certify that I will notify the Storage Tank Compliance Department of EPC before undertaking any activity that deviates from any portion of this application as approved.
